

Measuring Leveling and Layout Tools

Angle Finders

Bosch

BDAF220K Digital Anglefinder Kit

Precision angle finder — measures the exact angle of existing surface within 0.1", also includes leg extension for confined areas

Simple miter cut calculator — calculates the exact miter angle needed for perfect fit of baseboard, picture frames and more

Compound cut calculator — calculates the exact miter and bevel angles needed for a perfect fit of crown moldings and more

Versatile memory — stores an angle measurement (such as crown molding spring angle) for repeated use)

Protractor — positions workpiece or intended cut line at exactly the desired

Level — built-in vertical and horizontal spirit levels, accurate to 0 +/- 0.05°

Digital readout displays on front and back for easy viewing

Leg extension — for measuring angles in confined situations

Carrying case — hard thermoformed foam case protects Miterfinder™ and includes an internal pocket for storing leg extension

Limited 2-year warranty

Part #

BDAF220K

Measuring Leveling and Layout Tools

Digital Levels

Bosch

24" Digital Level

Precise measurements in degrees, percent or inches/foot
 Digital accuracy — at 0° or 90° = ±0.05° 1° to 89° = ±0.2°
 Quick-and-easy field calibration - provides consistent results
 Angled, easy-to-read display - automatically rotates values when working overhead

Part #
BDNM60L

48" Digital Level

Precise measurements in degrees, percent or inches/foot
 Digital accuracy - at 0° or 90° = ±0.05° 1° to 89° = ±0.2°
 Angled and easy-to-read display - automatically rotates values when working overhead
 Quick-and-easy field calibration - provides consistent results
 Auto shut-off after 6 minutes of inactivity

Part #
BDNM120L
